Brand Overview

Who We Are?

Clarus Magnus Health and Diagnostic is 24x7 advanced diagnostic center and multispeciality polyclinic located in Koramangala, Bangalore. with over 17 years of experience. the center offer a wide range of services including MRI, CT scans, ultrasound, and a fully automated pathology lab. Driven by precision and technology. Clarus Magnus ensures accurate and timely diagnostic results that support effective medical decisions. Backed by expert radiologist and healthcare professionals, the focus remains on delivering reliable reports with clarity and care. The center combines advanced diagnostics with a patient-first approach, creating a seamless and trustworthy healthcare experience.

Our Vision

To build a healthcare environment where every patient feels understood, reassured, and supported through clear information and compassionate care at every step.

Our Mission

To simplify healthcare through precise diagnostics, expert clinical support, and transparent communication-ensuring a seamless and patient centric experience.

Brand Statement

Clarus Magnus Health & Diagnostics is a patient-first, radiologist-led diagnostic centre that integrates accurate diagnostics and trusted clinical care-delivering clear information, compassionate support, and confidence in every healthcare decision.

Target Audience

Clarus Magnus caters to individuals seeking accurate, reliable, and timely diagnostic services across all age groups. The primary audience includes patients referred by doctors for imaging and lab tests, as well as individuals, families, and senior citizens who value convenience, clarity, and quality care. Additionally, the centre supports healthcare practitioners by providing precise diagnostic insights that aid in effective treatment planning.

02

BrandLogo

Primary Logo

The Clarus Magnus logo is the default and preferred representation of the brand. It combines a custom-designed “CM” monogram with a human-centric form, symbolizing care, precision, and trust in diagnostics. The abstract figure seamlessly integrated within the monogram reflects a patient-first approach, representing health, well-being, and personalized medical attention.

The wordmark “Clarus Magnus” is set in a clean, modern typeface, ensuring clarity and professionalism, while the supporting line “Health and Diagnostics” reinforces the brand’s core service offering.

Clear Space

The Logo must always breathe. Maintain a minimum clear space equal to the height of the monogram (11X) on all sides. No text, graphic elements, or edges may enter this zone. this protected area ensures the logo remains prominent, legible, and authoritative in every application

Logo Breakdown

The Clarus Magnus logo is constructed by merging the initials “C” (Clarus) and “M” (Magnus) into a single, cohesive form. These letterforms are thoughtfully combined to create a human-centric figure, symbolizing care and connection. The design ensures that the brand initials “CM” are subtly embedded within the symbol, reinforcing brand identity. The circular element represents the head, completing the human form. The overall shape also suggests a heart, reflecting compassion and trust. Clean curves and balanced geometry maintain clarity and scalability across applications

C - Clarus

M - Magnus

Person and Heart

Logo Mark

A logo mark is a standalone graphics symbol that represents a brand, focusing on a simplicity and distinctiveness. it's construction involves careful design of shapes, colors, and proportions to create a memorable and versatile identity.

Logo Scale

To ensure legibility and impact, never display the primary logo smaller than 70px width on screen or 20 mm in print. The monogram - only version must never go below 25x (digital) or 8mm (print). Respecting theme minimum sizes guarantees the logo remains sharp, recognizable, and authoritative across all medium

Bold Scaling

75px

Medium Scaling

50px

Small Scaling

35px

Minumum Scaling

25px

Logo Variation

Clarus Magnus brand provides four official logo variations to cover every use case: The horizontal logo (default for all primary applications) the vertical logo (for constrained spaces), the standalone monogram (perfect for icons and subtle branding) and the word mark (permitted only when the monogram appears nearby) each variation is precisely crafted and supplied as master artwork - never recreate, combine, or modify them. Correct usage maintains instant recognition and absolute consistency across every medium

Monochrome Version

The Monochrome logo is reserved for one-colour printing, engraving, or situation where full color is impossible. Use solid white on black/dark backgrounds or solid black on white/light background. Never use other colors in monochrome applications - This version exists purely for technical necessity while preserving maximum clarity and brand recognition.

Logo Placements

The Clarus magnus logo must always sit in one of the four corner position, never centred or floating in open space. This disciplined placement creates instant visual structure and authority across business cards, documents, slides, and digital layouts. Maintain required space and align with edges or safe zones for maximum impact and consistency.

Logo Misuses

These examples illustrate common violations that compromise the Clarus Magnus brand. Never stretch, rotate, recolor, add effects, outlines, shadows, texture, or break the lockup. Every misuse weakens recognition and dilutes the precise, premium identity we protect. Always use only the official artwork exactly as supplied.

Do not stretch Or distort the logo

Do not add drop shadow Or glow

Do not extra outline or stroke

Do not Change the shades in brand colors

Do not rotate or tilt the logo

Do not rearrange or break the lockup

Do not use unapproved color combinations

Do not apply texture or pattern fills

03

Brand Colors

Color Pallet

The Clarus magnus color palette is crafted to reflect trust, care, and medical excellence.

The Deep blue - acts as the primary color, symbolizing reliability, stability, and professionalism in healthcare.

Lighter Blue Complements it, adding a sense of clarity, calmness, and modern approachability.

The Red accent represents life, care and human connection, used subtly to draw attention where needed.

White balance the palette, ensuring cleanliness, simplicity, and high readability. Together, these colors created a visually soothing yet confident identity aligned with healthcare values.

Color Tint

Tints are included in the Clarus Magnus color system to bring flexibility and consistency across all brand applications. They allow the core colors - Deep blue, lighter blue, red and white to be used in softer variations without losing brand identity. using tints helps in creating visual hierarchy. making layouts feel lighter, cleaner, and easier to navigate. They are especially useful for backgrounds, infographics, UI elements and subtle highlights where full strength colors may feel too heavy. Tints also ensure a cohesive look across both digital and print mediums while maintaining a calm and professional healthcare aesthetic.

04

Brand Typography

Typography System

Lato is chosen as the primary typeface for Clarus Magnus to reflect a clean and modern healthcare identity. It's balanced and humanist design ensures high readability across both digital and print applications. The simplicity of Lato complements the brand's professional and approachable tone. It maintains clarity in communication while supporting a structured and consistency visual system.

The image shows two overlapping forms titled "CT SCAN RECORDS" from "Classis Magnus Health and Diagnostic". The forms are white with black text and lines, set against a blue background. The top form is slightly offset to the right and up from the bottom form. Both forms have a header section with a logo (a heart with a cross) and the text "Classis Magnus Health and Diagnostic" and "100-000-1000-0000-0000-0000". Below the header, there are fields for "SL No. Date", "SL No. Month", "Age / Sex", and "Name of Patient". To the right of these fields is a "Date:" label. The main body of the form is a large grid with multiple columns and rows, designed for recording scan results. The bottom form is partially obscured by the top one.
